- Electricity: Main grid

A superb plot of 8,500m2, located in an elevated, semi-rural landscape between Silves and Messines in the central Algarve. The land has planning permission granted for eight detached contemporary villas, each benefitting from pools, gardens and far-reaching view to the coast. Part of a small, local community within an easy drive to local amenities, including lovely reservoir walks and the medieval city of Silves. Investment opportunities such as this are seldom available, and we believe this project will suit investors, builders and developers. Possibility to acquire 4 more plots to add to the project.
